## IMPLEMENT DEALERS MEET

Fight Still on Between International  
Companies and DealersKansas City, Jan. 22.—Speakers at to-  
day's session of the convention of the  
Western Association of Retail Implement  
and Hardware Dealers discussed the ven-  
tion and conspired patience and consen-  
sation in the fight on the International  
Harvesting company. At the same time  
it was stated distinctly that harmonious  
relations between the International com-  
pany and the dealers would not be re-  
stored until the objectionable clauses in  
the contract are eliminated, or at least  
modified, and other evils affecting the  
profits of the men who sell to the farmer  
removed.It is believed that neither the companies  
in the merger to rise independent man-  
ufacturers wanted to cut prices.A resolution adopted recommends the  
extension of reciprocal trade arrange-  
ments with other countries wherever the  
same may be made to the advantage of  
this country, and favors the early ratifi-  
cation of the pending reciprocity treaties  
now before the senate.Edward Hemeny of Severance, Kan.,  
was elected president of the association.

## SANITARY CONDITIONS BAD.

Plague in Mazatlan District Confined  
to the Pools.Los Angeles, Calif., Jan. 22.—Charles  
M. Rhodes of Philadelphia, a capitalist  
interested in mining property near the  
city of Mazatlan, N. M., has arrived in  
Los Angeles. He was obliged to charter  
a steamer to go from Mazatlan to Guaya-  
quil, where his party were quarantined for  
several days. With regard to the situation  
in Mazatlan and Guayaquil Mr. Rhodes said:"The Mazatlan plague is confined to  
the pool class of natives, even to the  
apparent exclusion of the few Chinese,  
of course, as panic has been created  
among the population and thousands of  
people have fled to the mountains. The  
quarantine at Guayaquil was very thor-  
ough and I see no reason why the people  
of southern California need have any  
fear of the spread of the disease this way  
from Mexico. The epidemic today  
caused by the authorities and  
presents an ideal appearance from a sani-  
tary point of view. In Mazatlan, the  
center of the plague, the sanitary condi-  
tions were deplorable and it may be a  
harder matter to stamp it out among the  
miserable poor people of the place. The  
Sanitary authorities have appropriated  
\$50,000 for fighting the plague in Ma-  
zatlan, and every house in which the dis-  
ease exists is burned, together with the  
contents."

## THANKED FOR THEIR FIGHT.

Quay and Foraker Have Good Will of  
New Mexicans.Denver, Colo., Jan. 22.—A special to the  
Republican from Santa Fe, N. M., says:  
The house passed the resolution today  
thanking Senator Quay and Representative  
Foraker for their splendid fight they are making for  
statehood. The resolution passed, 19 to  
3, those voting against it desiring to in-  
clude the other senators by name who are  
friendly to New Mexico's claim to state-  
hood. The resolution will be amended to  
that effect when it reaches the council.

## THEY WENT ASHORE.

Struck on Rocks and Shortly Went  
to Pieces.Block Island, R. I., Jan. 21.—The United  
States tug Leyden, bound from San Juan,  
Puerto Rico, for Newport, ran ashore on  
the south side of this island today and  
it a total wreck. Six of her crew left  
the wrecked tug in a small boat, which  
was dashed to pieces on the rocks a short  
distance from the shore. They were re-  
scued by life-savers. The remaining crew  
of eight men and Lieutenant Chester  
Wells, the commander, were taken off in  
the breeches buoy with great difficulty  
by the new Shoreham life-saving crew.  
Seaman Land, who was in the small  
boat when it was demolished, swam un-  
til he was rescued, but he is not ex-  
pected to live, because of the injuries he  
received in the heavy sea. The tug  
was wrecked on the rocks at 1 o'clock  
and immediately set on fire and she  
was finally successful, the end of a  
bawler. The tug was bound for New-  
port and had on board the breeches buoy  
was put into operation. One of the  
sailors were drawn through the surf and  
shortly after 3 o'clock the last man was  
hailed safely upon the shore. Lieutenant  
Wells reports that during the night he  
picked up Shinnecock Light and buoy  
on until daylight, when he got Montauk  
Light. In a very short time the tug set  
on fire. He had intended to go to  
two miles south of the light and, as his  
patent had indicated that his position  
was correct, he proceeded. He shaped his  
course for Point Judith whistling buoy,  
all the while expecting to see the light  
while at the sound of six bells on buoy,  
which at the rate of six knots an hour,  
when with a crash, the Leyden struck  
up on the rocks. The life-savers sighted  
the vessel in distress very soon after the  
accident and to their prompt response  
the commander and crew were saved.

## WILL GO TO GOVERNOR

Appropriation for Exposition in Ore-  
gon Passed Legislature.Salem, Ore., Jan. 22.—The bill appropri-  
ating \$50,000 for the Lewis and Clark  
centennial exposition at Portland in 1905,  
which passed the house yesterday, was  
passed by the senate today, with only  
two negative votes. The bill now goes  
to the governor, who will probably sign  
it tomorrow. With the \$50,000 of stock al-  
ready subscribed and the \$50,000 appro-  
priated by the legislature, the directors of the  
exposition will begin active work at once  
toward putting the grounds in shape.

## CASH ASSETS WERE SMALL.

Not Much Money Found in Texas  
State Bank.Jacksonville, Tex., Jan. 21.—United  
States Marshal Easton today came here  
and took charge of the Texas State Bank,  
which has suspended. He stated that the  
cash assets found consisted of ten cents,  
there was no negotiable paper left in  
the vault. A number of notes which have  
been sent here for collection are alleged  
by the men whose names appear thereon  
to be counterfeit.

## INVESTIGATE COAL FAMINE.

Committee to Be Appointed by Legis-  
lature to Make Inquiry.Topeka, Kan., Jan. 21.—The legisla-  
ture today provided for an investigation of the  
coal famine. A bill passed both houses  
providing that a commission be appointed  
to look into all the traffic condi-  
tions and the output of the mines. It is  
expected that the legislature will pass the  
bill and the commission will be appointed  
and the investigation will be made.

## CHARTER OF AFFILIATION.

President McDonald Receives Request  
From Railroad Employes.Butte, Mont., Jan. 21.—President Daniel  
McDonald of the American Labor Union  
announced today that he has received a  
formal application from President Charles  
Foster of the United Brotherhood of Rail-  
way Employees at San Francisco, asking  
to be chartered as affiliate. There is no  
doubt, says Mr. McDonald, that the Ameri-  
can Labor Union will grant this charter  
as an early date. The association of the  
brotherhood will send the members of  
the American Labor Union to something  
over 100,000.SIX DECIDED TODAY THAT DEALING IN

SHADE DOWERReceipts Were Much Less  
Than the Demand.

TOP PRICE WAS \$6.55

Cattle Market Was Active and  
Strong to Higher.Hog receipts were much below expecta-  
tions yesterday and the packers were un-  
able to secure their usual supply for to-  
day's killing. Missouri river markets  
quoted five lower at the opening, but not  
to exceed 50 cents was taken off here.  
In most cases sales were made at only a  
shade lower, and some of the best heavy  
hogs went at about steady prices compar-  
ed with the previous day's market. Cal-  
ifornia and Dold both had liberal orders  
but it soon became evident that the sup-  
ply of hogs would not be nearly equal to  
the demand, and that prevented a  
break in prices corresponding with other  
markets.

## SUIT WAS DISMISSED.

Alleged Violation of Nebraska Law  
Turned Down.Lincoln, Neb., Jan. 21.—The supreme  
court today ordered the dismissal of the  
suit against the Union Pacific Railroad  
company for \$50,000 damages for alleged  
violation of the Nebraska freight rate  
law. The court affirms the report of the  
board of referees appointed to inquire  
into the case. This report in effect de-  
clared unconstitutional the act creating  
the state board of transportation, which  
assessed the penalties against the road.  
The merits of the maximum freight rate  
law are not taken into consideration, but  
the case is thrown from the court.

## ANKENING IS IN LEAD

Gained Two Votes in Last Ballot in  
Oregon Legislature.Olympia, Wash., Jan. 22.—In two bal-  
lots cast for United States senator today  
Levi Ankeny added two votes to his  
strength, making his total 52, or within  
17 votes of enough to elect. Both votes  
came from Harold Preston's strength, but  
Preston gained one vote from John L.  
Wilson, so the record of balloting shows  
the loss of one vote for both Pres-  
ton and Wilson. Preston now has 51,  
and Wilson 11, the 11 scattering votes do  
not stay with any one man. They are  
mostly strong railroad commission men  
and it is claimed that they will go in the  
senatorial contest where they can secure  
the best returns for the railroad commis-  
sion bill. The railroad commission and  
senatorial problems now seem inseparably  
involved with each other.

## HE COMMITTED SUICIDE.

Verdict of Jury in Case of Baseball  
Player Mercer.San Francisco, Jan. 21.—Suicide was  
the verdict of a coroner's jury in the case  
of Winn Mercer, the ball player who was  
asphyxiated at the Occidental hotel on  
January 18. Attaches of the hotel told of  
the detection of the odor of gas and the  
subsequent rubber tube had been fastened on the  
gas jet and the other end was found in Mer-  
cer's mouth. The jurors felt by the ball  
player stating that he intended to com-  
mit suicide were read to the jury by Cor-  
oner Landau.

## SHIPPERS AND NOTES.

Dold and Cudahy want more hogs than  
are now coming to this market. The ship-  
pers will expect export cargo prices  
while receipts continue light.The new are likely to be turned on  
at the stockyards tonight. They are  
ready to ship and would not turn  
on the current until the connection at  
the engine house was made according to  
Dold rules. All electric wiring at the  
Dold plant must be done according to  
Dold rules, so as to prevent the possibility of  
fire, or it doesn't do.
